EXPERIENCE

Supplymint — Product Designer

Gurugram, Haryana | January 2025 - Present

- Lead UI/UX design for a comprehensive Supply Chain Management SaaS product, managing end-to-end design across web and mobile applications.
- Reduced user task completion time by 25% and minimized cognitive load by decoupling a monolithic platform into three specialized products; streamlined complex B2B workflows for 1,000+ daily users.
- Translated stakeholder requirements into user-centric designs that optimized supply chain efficiency; developed centralized dashboards enabling users to monitor real-time data and end-to-end logistics activities.
- Established a unified visual language and scalable component library that accelerated feature deployment by 40% and reduced UI inconsistencies across the product.

Webitlab — UI/UX Designer

Mohali, Punjab | February 2023 - January 2025

- Delivered design solutions for a diverse global clientele spanning E-commerce, B2C, and SaaS consultancies across mobile and desktop platforms.
- Collaborated with cross-functional teams to design intuitive interfaces, including data-driven dashboards.
- Created and maintained design systems from scratch for an IT consultant client.
- Developed and refined user journeys by translating wireframes into high-fidelity, interactive prototypes using Figma and Adobe Creative Suite.
